Education

ABES Engineering College, AKTU

B.Tech in Computer Science and Engineering (AI & ML)

2023 – 2027

Aggregate till 6th Semester: 75.5%

Children Public Sr. Sec. School, Fatehpur, UP

Senior Secondary (Class XII), CBSE

2021 – 2022

Percentage: 86%

Children Public Sr. Sec. School, Fatehpur, UP

Matriculation (Class X), CBSE

2019 – 2020

Percentage: 93%

Achievements & Career Highlights

Adobe University Hackathon 2026 – Qualified Round 1 (MCQ + Coding Online Assessment) and advanced to Round 2 (Brand Visibility Case Study), demonstrating coding proficiency, problem-solving, analytical reasoning, and strategic thinking; received an official Certificate of Participation from Adobe.

Business Development Executive Selection – GenZ EducateWing Pvt. Ltd. – Selected for the Business Development Executive role and received a formal employment offer, demonstrating professional readiness, business communication, business acumen, and interest in customer-focused growth.

Skills

Business & Sales: Business Development, Lead Generation, Market Research, Customer Relationship Management (CRM), Sales Strategy, Client Communication, Negotiation, Presentation, SEO

Programming: C, C++, Python, JavaScript, SQL

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems, DBMS

AI/ML & Development: Artificial Intelligence, AI Agents, HTML, CSS, Tailwind CSS

Tools: Git, GitHub, n8n | **Core Strengths:** Analytical Thinking, Problem-Solving, Communication, Strategic Thinking

Experience

Virtual Intern – Artificial Intelligence | IBM Developer Skills Network

Jun 2026 – Aug 2026

- Successfully completed a Virtual Internship in Artificial Intelligence via FSP with a passing grade, gaining structured exposure to AI concepts and practical learning through the IBM Developer Skills Network.
- Completed the program from 24 June to 27 August 2026 and earned a credential issued through IBM Mooc, with certificate authenticity verifiable through the official course platform.

Projects

LeafSense – AI-Powered Plant Disease Detection System

2026

Python, TensorFlow, Keras, CNN, Computer Vision, Streamlit

- Built an end-to-end machine learning application that analyzes uploaded plant-leaf images and predicts whether the plant is healthy or affected by disease.
- Designed and trained a multi-class Convolutional Neural Network (CNN) using TensorFlow and Keras for plant disease classification across multiple plant species.
- Developed an interactive Streamlit web application that provides real-time predictions along with plant-health and care recommendations for farmers, gardeners, and hobbyists.
- Combined computer vision-based disease detection with actionable recommendations to support proactive plant-health management and reduce dependence on manual diagnosis.

Certifications

Virtual Internship via FSP – Artificial Intelligence – IBM Developer Skills Network / IBM Mooc
[Credential Verification](#)

September 2026

Data Analytics Job Simulation – Deloitte via Forage

July 2026

Exploratory Data Analysis (Silver Category) – NASSCOM FutureSkills Prime, MeitY, Government of India

August 2026

AI for Beginners – HP LIFE

August 2025

Leadership & Extracurricular Activities

ARDEMA Technical Club: Leadership, Event Planning & Management

TEDxABESE: Volunteer / Organizing Team
